

## Cleaning Product Instruction Sheet

### ***When to Use:***

MOLE eliminates a wide range of pet, human, and other malodors through a bio-enzymatic action that consumes the source of the odor.

## **MOLE** **(Mal Odor Liquid Enzyme)**

### ***Description:***

4 oz. Liquid Pouch, 36 Liquid Pouches per Case

### ***Mixing:***

1 pouch per 2 quart pump up sprayer.

### ***Directions:***

#### **For General Cleaning:**

Empty 1 to 2 pouches into 1 gallon of warm (not hot) water when applying with a mop or sponge. Remove solids before applying product. **LET AIR DRY**

#### **For Carpet Spills:**

Fill a 2 quart pump up sprayer with warm (not hot) water. Empty 1 to 2 pouches into the sprayer. Pretest for color fastness. Absorb as much of the spill as possible before spraying MOLE directly onto the affected area. On tough spills/stains, cover treated area overnight with damp cloth to prevent evaporation - then continue with carpet cleaning.

#### **For Restroom Cleaning:**

Fill a 2 - gallon pump up sprayer with warm (not hot) water. Empty 1 pouch into the sprayer, 2 pouches for really tough odors. Spray MOLE directly onto the floor or wall around the toilets for tough odors. **LET AIR DRY**. Do not mist up in the air.
